Be spill prepared not ill prepared

DATA SHEET
ABSORBENT

CLASSIC CHEMICAL PILLOWS 38cm x 23cm

PRODUCT

Our Chemical Pillows are yellow in colour and are made from a spunbond outer layer for fast wicking, with a treated hydrophilic absorbent and are stitched around the outside to avoid any chemical reactions.

Pillows are used to catch spills under machinery or where drops and leaks are a problem. They are also ideal for absorbing spills in difficult to access places or where pooling of a spill has occurred.
